Celebrations for the World Ozone Day 2017

As you all know that 16th September is celebrated worldwide as ‘**Ozone Day**’, to create awareness about ozone depleting substances (ODS) and their effect on depletion of life saving ozone layer. MNIT Jaipur is celebrating this day since last 10 years. This year marks the signing of ‘*30 years of Montreal Protocol*’ and hence it is proposed to organize week long activities from 11th to 16th September. Major aim of the celebration is to create consciousness among my zealous students towards this important issue.

Following activities have been planned to enhance our understanding of various aspects of ozone depletion and ignite eco consciousness in us. These will also enable us to inculcate environment friendly practices in our day to day life to make ourselves aware and committed citizens of India and the World.
